Hello, Jim!

Thanks for the note. I haven;t yet received the photo, but I'll keep you posted.

As it turns out, I met another third cousin on the internet - Elizabeth Waters. She lives in Texas and her gg-grandmother was Sinah Romine, sister of Berry Turner and John Wesley. She's sending me charts and group sheets - I'll be happy to pass on if you're interested.

Interesting how Romines are so scattered - I suppose we have the "wanderlust" gene - must say I've felt the urge, and my father's father and brothers are known (within the family) for their meanderings. I've never "run into" a Romine, and it must be strange to be a Johnson or (god forbid) Smith and always be meeting people with your name. Genealogy would also be tough!

Anyway, thanks for the note! I'll let you know about the photo and those charts.

Take care,

Karen
